TREE PULLER

TREE PULLER - TP

Unit height w/guard - 50" / Base unit height - 22"

Guard width - 60" / Base unit width - 48"

Unit comes standard with top guard, it is for better handling of trees and protection

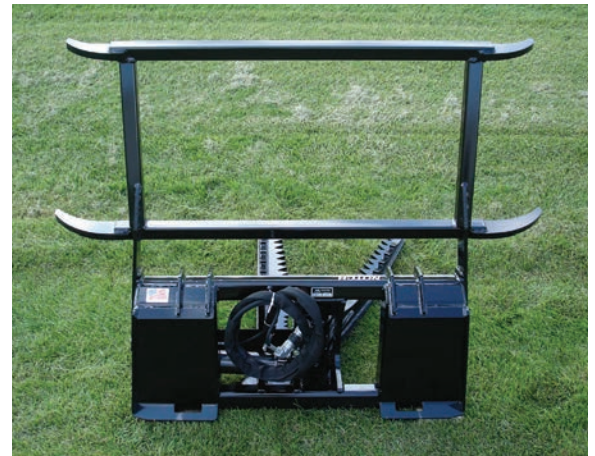

Constructed with high tensile steel

Tines have barbed teeth and rugged inner edges for better grabbing and cutting ability

Cylinder is located on back of the unit so it is protected and out of the way

Unit is complete with cylinder and hoses

Universal and Euro attachments standard, other attachments available

OPTIONAL SCREEN

Tree Puller unit with optional bolt on screen

Offers more protection to operator and machine

OPTIONAL PUSHER GUARD

Tree Puller base unit with optional pusher guard in place of standard guard

Heavy duty guard allows operator to push while pulling trees
